Profile

I have been working as a faculty member in the Department of Entomology, Sher-e-Bangla Agricultural University. I have been working hard to build up a successful career by proper utilization of my professional and educational skills, devotion and passion for work. Look forward to getting involved with leading and pioneer research and educational institutions where creativity, sincerity and performance are encouraged to enhance career and experience. My research interests lie in morphology, biology, molecular study of an insect and management of those insects.
